A Word from the Board

By John C. Murray

Greg Schrock completed his term as chair of the board of directors of Menno-Clinic, India at the April 23, 2001 meeting. Greg provided significant leadership to the board during his term of service and was instrumental in guiding the board through the development of building plans, establishing policies and initiating the building phase of this project. We are grateful to Greg for the contribution of his time, energy and talent. We pray God's blessing on him as he continues to support this project and serve God in other ways.

As the discernment process for a new chair continues, John C. Murray, Hesston, Kansas, will serve as interim chair of the board of directors. John has served on the board of directors of Menno-Clinic, India since the projects beginning and previously served as chair.

The building continues to progress on schedule. It is now completely enclosed and work on the interior portions of the building is proceeding as planned. Opening ceremonies and dedication services are being planned for November of this year. Several board members are beginning to make plans to be present for this significant celebration of a vision becoming reality.

As you remember the clinic in your prayers, we ask that you specifically remember the following items:

- 1) That God's blessing and guidance would continue with Narasimham, the on-site building project manager.
- 2) That God would guide the process of finding a primary care physician.
- 3) That God's blessing and joy would continue with Doc and Olga as they continue to provide vision and leadership for the project.
- 4) That God's guidance would continue with the board of directors as they continue to develop policies and procedures and plan for the opening celebration in November.

We are grateful to God for all of our prayer and financial partners in this project. Because of all of you God is touching the hearts and lives of the people of Chiluvuru

Doc and Olga Yarlagadda visit with a woman who is believed to be the oldest resident in the village. Along with taking care of the many aspects of business related to building the clinic, each trip includes taking time to build relationships with people in the village. This provides many opportunities to share the faith that has inspired the clinic project.
